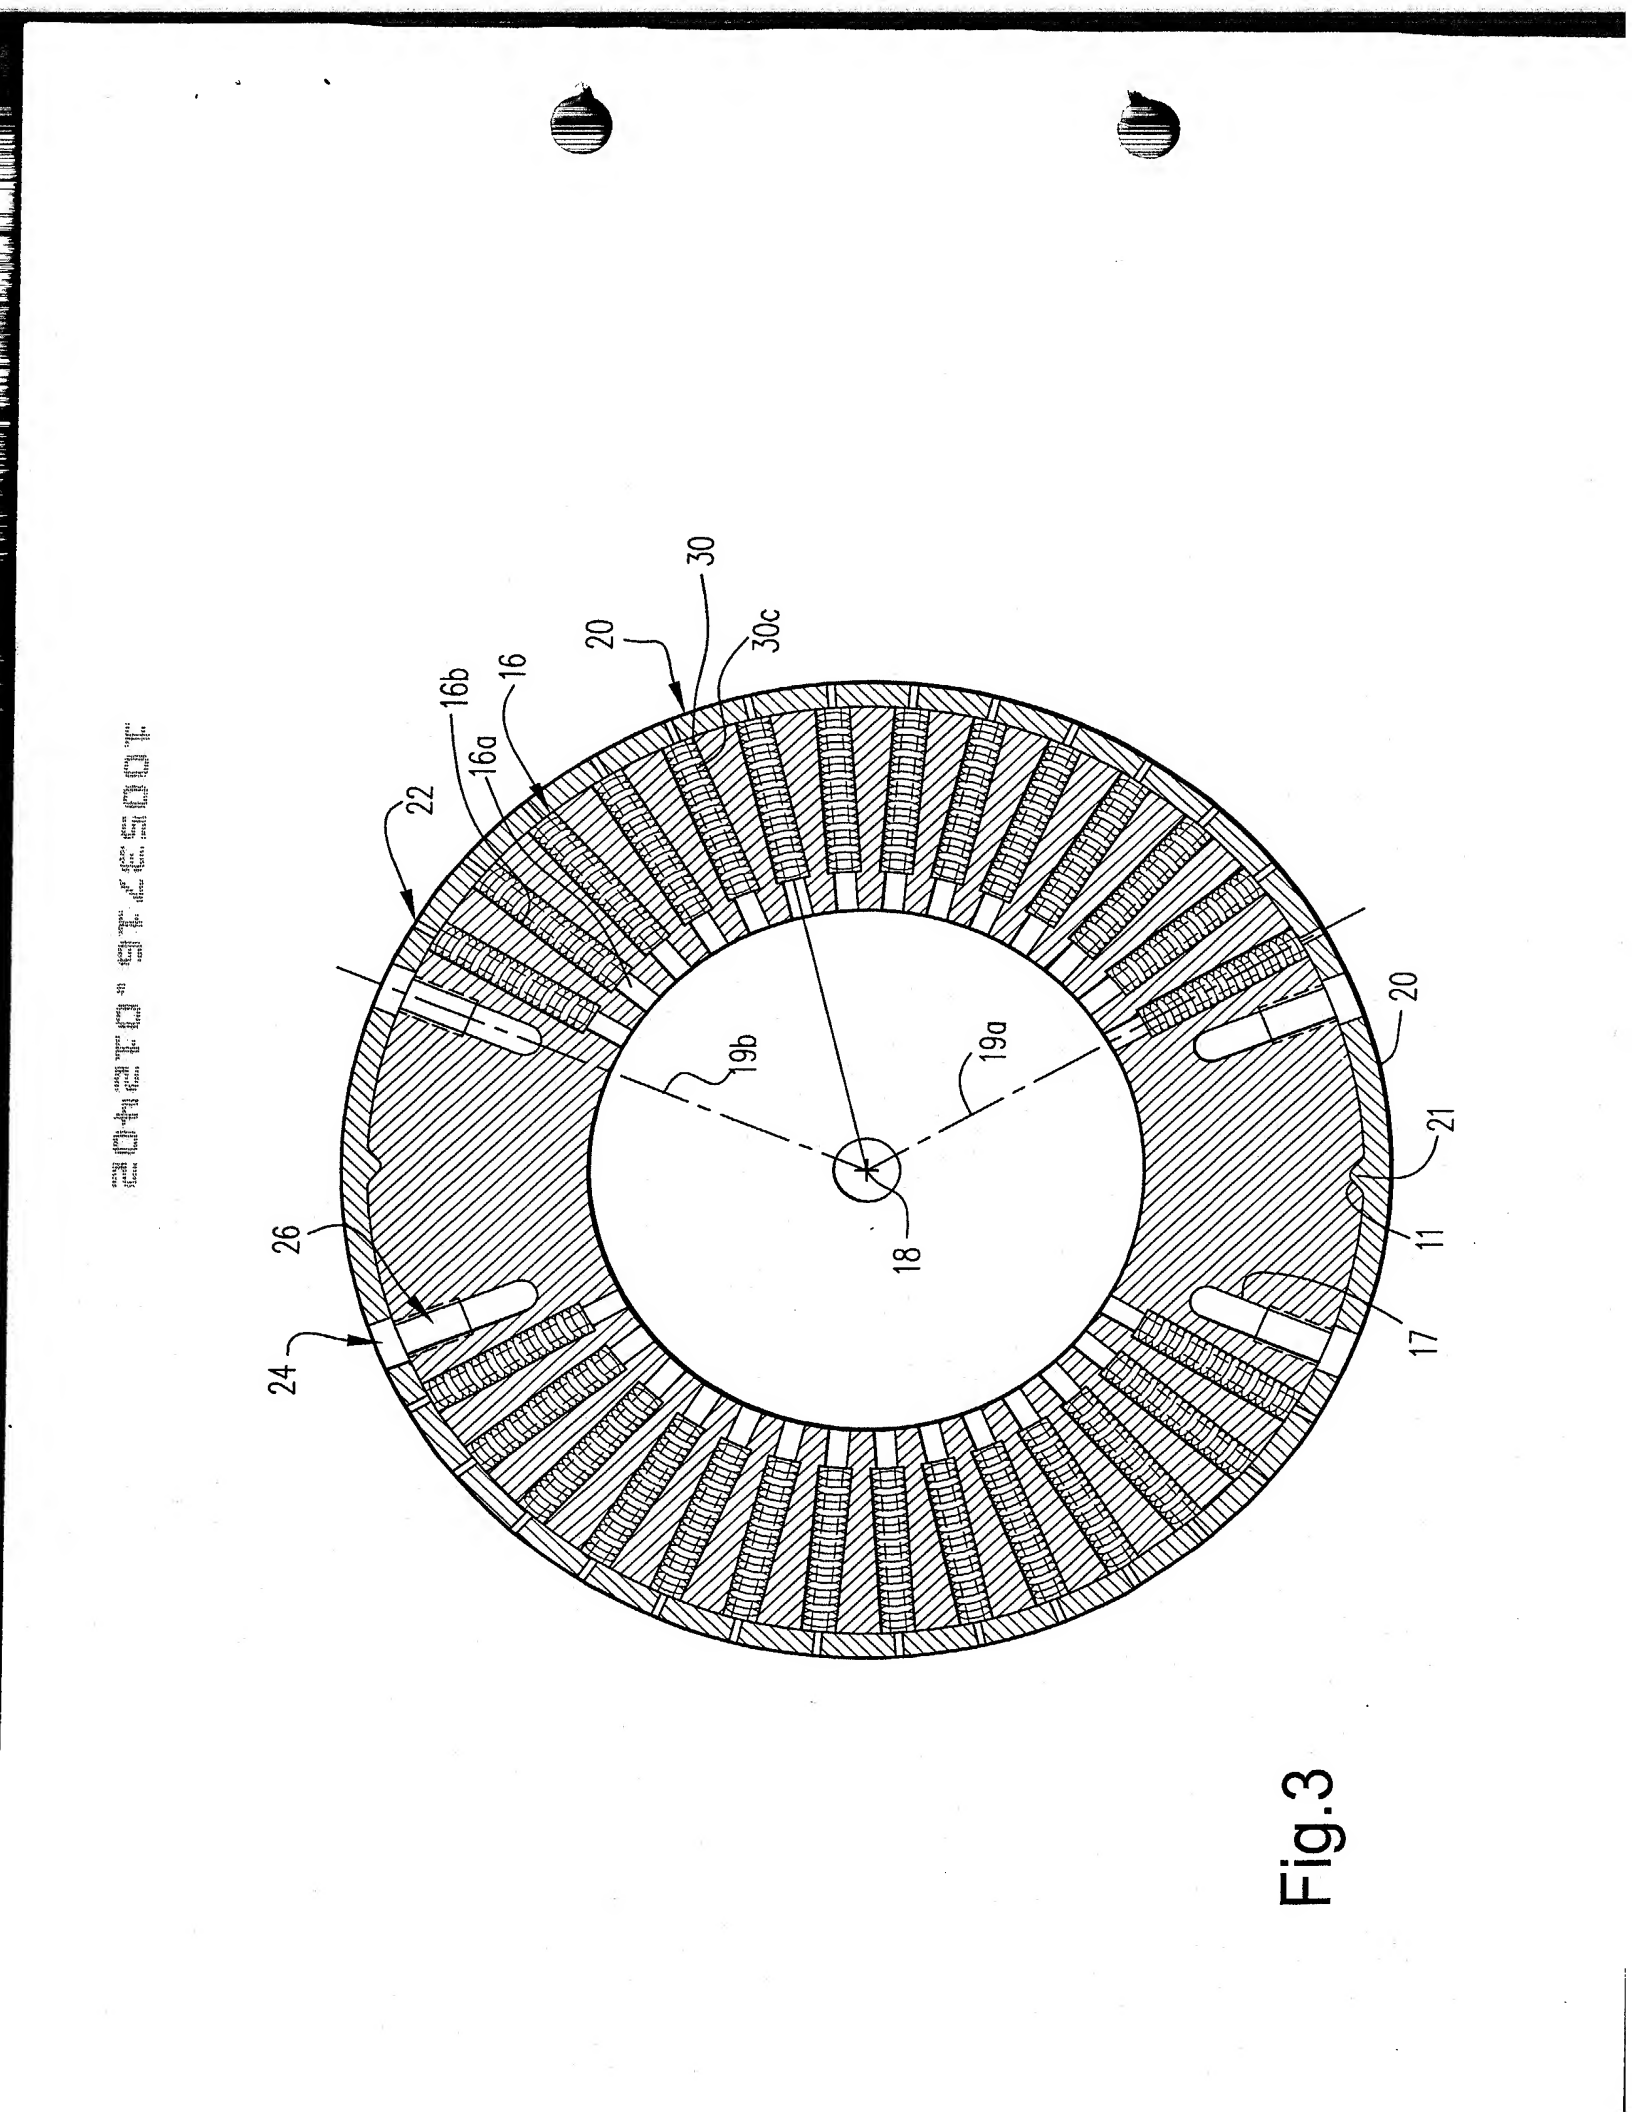

Fig. 3 is a cross-sectional view of a circular device. The device has a central hub (18) and a ring of segments (20). The segments are arranged radially and contain internal structures (16a, 16b, 17, 21, 24, 26). The outer edge is labeled 30, and the inner edge is labeled 30c. The segments are separated by gaps (19a, 19b).
